Levels of Care

Health Care

Our facilities and our staff are dedicated to providing a caring and secure environment that focuses on activities of daily living, nutritional encouragement, and restorative care.

Inpatient and Outpatient Rehabilitation

We customize a specialized physical, occupational, or speech therapies program to meet your rehab needs with our own therapist with Therapy Solutions.

Respite

Respite care is designed to meet short-term care needs up to 30 days of care.

Assisted Living

We offer a living environment for residents who need a little extra help with daily living activities or medical needs.

Assisted Living Plus

Our Assisted Living Centers offer an environment for residents who need daily assistance with meals, transfers (1 assist), showers, dressing, and medications.

Independent Living Plus

A more comprehensive choice in Residential Care and can provide meals, housekeeping and laundry services, activities, and some nursing supervision.

Home Health

We're dedicated to the emotional and social aspects of clients' lives, as well as their physical needs. We bring top-rated health care right into the comfort of your home through our home health company, Fountain Park Home Care.

Special Care

We provide a safe, supportive and therapeutic environment for those at risk, those that wander or other conditions that require specialized care.

P.A.R.K. (Parkinson's Activity & Rehabilitation Clinic)

The P.A.R.K. program is designed to provide people with Parkinson's Disease exercises and information to optimize their potential of function.

Hospice

We partner with providers to offer a program was designed so that loved ones can pass in comfort and with dignity, with the support of professional supervision.
